

Annotated bibliography for *general habitat issues* compiled and summarized by The Pew Charitable Trusts

Partnership for the Delaware Estuary. (1991-2018). Science and Research Data and Report. In <http://www.delawareestuary.org/data-and-reports/science-reports/>.

- The table lists all scientific and technical reports currently available from the Partnership for the Delaware Estuary, including those produced under the organization's former name, the Delaware Estuary Program. Most of these are available to the public; however, only some are currently available online.
- Includes reports covering tidal, SAV, and other coastal ecosystems.

Long Island Sound Study. (2015). Long Island Sound Comprehensive Conservation and Management Plan 2015. Retrieved from https://longislandsoundstudy.net/wp-content/uploads/2015/09/CCMP_LowRes_Hyperlink_singles.pdf

- Updated summary to ongoing Long Island Sound tidal ecosystem recovery efforts, including water quality and wildlife targets, methodologies, and mapping and monitoring strategies.
